# Stage Second Sight Act 

INCLUDING

## The Author's New Improved Plan and System of Act

By

TO WHICH IS APPENDED
A SUMIMARY AND CONDENSED COIMPILATION INCLUDING OVER $\$ 30,00$ WORTH OF

HOW 1 CAME TO WRITE THIS MANUSCIKIPT.

I was commissioned by one of my old custommes of tho BITRIING HULL studio dars, for whom I had written and staged several Acts. to mepare for him THE VIRY BEST STAGE SECOND STGHT ACT 1 could piorluce, anc to furnish him with the instructions in manascript so that he could study and practice the Act whiln still on the road presenting his current Act. Regardless of expense or labor involved $T$ was to pro. duce the best that $I$ could bring forth. I inmediately set about preparing and perfecting an improved form of act on these lines which I long had in mind, evolved from close observation of what is tu day. the only uncrowded field in raudeville; the only Act of which ther. are less Acts than the demand.

To further my manuscrlpt and to make it more complete. I decided to incorporate a summary or a compilation of AIL the various 'In stfuctions' for this Act, as sold by masical dealers and individuals. To this end $I$ placed orders for all of the various Instructions form every source that $I$ or my friends had erer heard of wi could learn of for while many of the instructions are alike in the main. I did not want a single good point that might be contained in any af them to escape me. In addition I had a stenographer from the American Magie Corporation go thru the Ellison Library and make extracts of everything there on the subject, and also called upon Mr. Hereward Carrington and other brother colloctors for all the assistance they could give me. As the resulting literature came in, I scoured it for the points $I$ sought, but with invariabla disappointment, until it gradually dawned upon me THAT THERE IS NOT TO DAY A SINGLE SET OF COMPREHENSIVE INSTHLCTIONS OBTAINABLE dNWHERE AT AN: PRICE.

Thourh $T$ paid from Five Dollars to Twelve Dollars for these "Instructions" there was not one which gave more than a mere Code of a dozen or two words to represent either numbers or lettris and a list of articles, fuch as is common knowledge. Not a nord about the Real Sccrets of the Act: The unceon assistants; the Elecirical Apparatus; the Handling of the Mrans by which the "Subject" can Accuralely Describe Articles eien beyond the pale of her knowledge; the Tricks of the Trade in Avoiding Difficult and Troublesome Articles; the very important idea of drawing or sketehing unfamiliar objects; the des cription of personal articles in the pockets of spectators and in fact all of the features and "Special Effects" which create or form the real mysteries of the Act.

I am not critical of any of the dealers purveying these "Instruc tions" for those they sold were all that was sold by otber magical depots, and all that was obtainable on the subject. Naturally no dealer had the time to devote to such investigation, and obviously no capable Second Sight Act was willing to sell the Act they were using. dgain, the Code principle was ONE PABT of the secret, and ONLY ONE of the principles cmployed, hat should by no means be put forward as more than one of the secrets, certainly not as "INSTMUCTIONS" for the Act.

The real Second Sight Act as presented on the Stage to day by the prominent arilists conld never be accomplished by the means described in these limited "Secrets".

The sum that was adranced to me for expenses and the amount to be paid to me on the completion of the manuscript totals $\$ 150.00$. This is a very small cost for an Act, about the price of a single Stage Illusion; but I retained the privilego of selling the manuscript to a limited number of patrons. So long as the purchasers agreed not to prosent it on the same circuit as my original patron.

Owing to the sad death of my client before the completion and delivery of the manuscript, $I$ am offoring it to my old friends; the readers of the "Burling Hull Books" that have gone before. As a ton wide circulation of this manuscript wonld probably be injurious to the Act (as it has never before becn practically explained and is fortunately now somowhat rare: I have prevailed upon my publishers to issue it only in manuscript form, rather than as an attractively covered book for display in store windows, from which it would soon get into general circulation. This plan of restricter publication worked out successfully with my recent manuscript "The Challenge Handcuff Act" published in the same form a few months ago.

In consideration of the very limited sale it is necessary for my publishers to charge a slight increase over the standard prices of the "AMAGICOR" Books, to protect themselves from total loss. But this is but a fraction of the price that any of the previous very brief and incomplete Instructions sold for, and the fact that the sale is limited will retract to the bencfit of each purchaser who applies the information practically.

Therefore, while $I$ do not expect that all of my readers will be in a position like that of my late client at the time i.e., with bookings ahead for the particular act so that it was worth all of one. Hundred and Fifty Dollars to him, I do hope that if they are interested in the subject (as their purchase of this manuscript would indicate) they will find it worth to them such a part of that sum as will make them feel they have received good value for their investment.

Trusting that it may meet with the approval that many of you have so kindly expressed to me in your valued letters, following the publication of my previous worlss. I beg to be considered

Fraternally yours,<br>BURLING G. G. HULL.

New York City,
July 4, 1916.

## INSTRUCTIONS FOR <br> SECOND SIGHT ACT.

The reason that this act is so puzzling generally; and ESPECLALLY to MAGICIANS who have bought what has previously been sold as the "Explanation" of the SECOND SIGHT ACT, and find upon seeing the Act, that they are as much or more mystified than the general public as to how the rosults are accomplished, in spite of the fact that they believed they had acquired the secret; is because, like the secret of the best tricks. it employs

SEVERAL ENTIRELY DTFIERENT PRINCIPLES
only ONE of which the so-called "Secrets" as proviously sold have explained. The reader, if a migician, will recall how tricks like the "Clock Dial" etc. are mado puzzling by the use of THO HIDELY DIFFER ING PRINCIPLES, as for instance, whon the Clock Dial is operated ON THL, STAGE by thread, the hand apparently MOVING OF ITS OFN VOLTTION and then when the bright ones" in the audience have decided that SOME SORT of connection with the hand IUST exist, the clock is carried down into the audience and worked there (though by a DIFFERENT METHOD) so that they are convinced their conjectures were all wrong. Each method dispioves the suspicions of the other, so that a perfect mystery is created.

How little chance then, has the spectator, to solve the secrets of the SECOND SIGHT ACT where the METHODS USED are CHANGED EVERY FEF MINUTES, so that whatever you think you understand about the act at first is disproved by several subsequent incidents in the Act?

THIS MANUSCRIPT IS NOT A "SECRET" BUT A SET OF INSTRUCTIONS.
It endeavors not merely to expose how part of the Act is performed, or even all of it, but to INSTRUCT HOFF TO ACQUTRE IT in all its details.

A NEF AND IMPROVED PLAN AND SET OF CODES IS INCLUDED
in addition to the instructions for the regular act, and to make it still more complete, there is appended a nummary of all the six (6) DIfFERENT METHODS AND "INSTRUCTIONS" AS PREYIOUSLY SOLD AT VARYING HIGII PRICES AS "INSTRUCTIONS FOR THE SECOND SIGHT ACT."

INSTRUCTIONS CLASSIFIED FOR STAGE,
LYCEUM. CIUB AND PRTVATE PERFORMANCES.
As different methods must be used for Lyceum, Club and Stage Proformances, they are treated separatels, first taking up the most elaborate form -

> THE STAGE SECOND SIGHT ACT

This, the most elaborate form of the Act requires the employment of several people behind scenes and about the theatre; entirely aside from the two performers who are seen ou the stage; of whose presence the audience is unaware of.

## THE SIX PRINCIPLES EMPLOYED

PRINCIPLE ONE: The Lady "Subject" oll the stage has an invisible telephone concealed in her hair (which is dressed down over her ears?, with wires running down to metal pointa in her shoes. which when she is seated she presses down so they pierce thru a thin carpet rug on the stage, and connect with two floor plates, the wires of which lead on to a telephone transmitter in the hands of an invisible assistant off stage.

PRINCIPLE THO: This assistant or anothor one is situated at an opening in the back drop or wings with a pair of field glasses so that he commands a view of the "House", and can both read the little imperceptible signals (described horeafter) made by the performer as he moves about (such as the direction he faces, and whether he holds his hands at waist, hoight ox above, etc. etc., and also actually SEE the majority of the articles handed to the gentleman performer, their col. or, etc. or their SILAPE 'so that they may be drawn by lady as explained hereafter in case thes are difficult to drscribe) as clearly shown up by the fiold glassos. This information is telephoned to the lady Subject.

PRTNCIPLE THREE: Aside from the foregoing, the proformer uses either a WORD CODE for DIRECT COMMUNTCATION with the Lady or a silent gesture or Slgnal Code read by assistant, and telephoned to the lady, to indicate the articles shown bim, and how far he wishes her to go in describing any article.

PRINCIPLE FOUR: Several confederates are placed in the audience with special articles, messages, etc. which the lady is of course nhle to describe in wonderful detail aud rapldity, sometimes even going into the history of the articles of the "Fortune" of the "Spectator" (conPederatolholding same; which "Special Stunts" increase the mystery and wonder, and incidentally convince spectators that if she could go into such detail with ONE PERSON she could do the same with ANY ARTICLE if she had time. Incidentally these pearranged stunt: lake up time and enso emablo performer to DODGE DIFFICULT SITVATIONS by turning to or having confedorate put rorth his article, etc. when any difficulty confronts. Confederates are given different articles each day the act :lays at the theatre, so if any of the audience $v j$ git subsequent per formances they will not find iepetition and suspect collusion.

PRINCTPGE FIVE: Local information news and directories or investigation are drawn upon to add to the various effects at times.

PRINCIPLE STX: Cnasists of the fact that while it appears impossible for the gentleman to communicate a description of so many differnent neticles, numbers of watches. etc.because this AlPARENTLY requires the SPELLING OUT of many words; thej are not ayare that:

FLRST - there arr only a LIMITED NUMBER of anticles LIKELY $t o$ br found in the audience.
SECOND - that most of these articles are known to, classified and GIVEN A NUMBER by the performers. so that it is only nocessary to sig nal $a$ NUMBER to let her know what the article is.
THTRD these are so CLIS:IFTED into sets and all other mescriptive Points" alsn rlassifird into Lists of "Colors", "Shapes", ete that with ONLY A SET OF 10 CODE MORDS, to rerresent the rigures 1 to 9 and Page 5

## POINT SIX, Cont'd.

and 0, (or a set of 10 IMPERCEPTIBLE SIGNALS) it is possible to indicate anyone of a THOUSAND different articles, colors, numbers, initials, etc. Thus the work is vastly simplified.

THE IMPROVED PLAN DEVISED BY THE AUTIIOR.
This consists of not only vastly improved CODES both SILEXT AND SPOREN, but an entirely new method which makes it annecessary to ask any questions, as "Fhat is the COLOR" What is the DATE?" etc. (which Is sometimes suspected of being part of a CODE) after the performer has asked the Subject to name the article; but SHE MAY GO RIGHT ON DESCRTBING TT IN DETAIL, apparently gpontancousiy, though she is really under the control of the performer at all times.

## EXAMPLE

One of the best systems and one which should be acquired in addition to whatever general means you use is the

## YORD CODE

This consists of a set of words to indicate the numeruls 1 to $Q$ and the cipher ( 0 ). It is nccessary to memorize at least TWO sets of words to indicate these same numbers for the reasuns which will appear later.
QUESTION CODE
"STARTERS"

1. WHAT (is this)
2. WHAT'S (this?)
3. WHAT NOW?. .... .... 3 - DESCRIBE (this
4. NOW WHAT?............... 4 .. TELL (this).
5. AND NOW?.. ............. 5 - NAME (this :
6. (AND) THIS?............. 6 GIVE (this)
7. THIS ARTICLE?.......... 7. STATE (this.
8. NEXT?. ..... ........... 8 - LOOR (at this).
9. AND HEIRE...... :.... 9 . PICTURE (this;
10.0VER HERE?.. .......... 10 - QUICK ( - . . )
11.OVER THERE............. 11 - SEE (this).

AFFIRMATIVES .

1. THAT'S RIGHT
2. RIGHT
3. GOOD

QUTEERIGHT 4. VERY GOOD
6 YES
7. WELL?
-
8.CORRECT

9 GO AHEAD
5. RIGHf SIR? (asked of party.) 10. GO ON.

The object of huving two sets is two fold as follows:

In the first column the words are all VERY SIMILAR. and should be used whenever possible as they are so MUCH ALIKE that THEY GIVE THE IMPRESSION THAT YOU ASK THE QUESTION IITTH THE SAME WORDS each time. This feature is a great improvement over all provious existing codes. But in case jou have to signal, say No. 5 either for the FIRST article you are handed, or after a pause you could not well use " AND NOW" but can use the alternative Starter: - "NAME (this)".

Again if you wish to signal No. 45, you use a Code Word from the First list for 4 (Now) and a code word from the second list for 5 (Name) making it:

$$
\begin{aligned}
& \text { 4-5 - - - - }=45 \\
& \text { "Now Name this object." }
\end{aligned}
$$

Now when you first enter audience both lady and assistant know jou are going to receive articles so your signals will apply only to ARTICLE LIST, and not to "Color", "Shape" etc.

To still further simplify and to make the words you use appear the same, you use a set of "AFFIRMATIVES" as below with which after lady has correctly named article, you employ to assure her she is right - AND AT THE SAME TTME SERVES TO GIVE HER THE NUMBER OF THE NEXT "COLOR "SHAPE", etc. WILL BE. For instance:-

```
Man. "Describe this".
Lady. "A watch."
Man. "Right" (now as the next POINT must be the COLOR,
                                    she applies the signal "Right" (No 1) to
                                    "COLOR" Table, which is either "White"
                                    or "Silver"; and as it is a watch, it
                                    must of course be the metal).
Lady. "It is a silver watch."
```

Performer has IN TAE MEANTIME opened the watch and noted the time so that he is ready to signal her the FIRST figure of the time with his next "affirmative". Of course she already knows what time the HOUR HAND will br at because she knows what time her act appears on the bill. So supposing the time by watch tn be 9.21 , it is then only necessary to signal her the FIRST FIGURE of the MINUTE hand (which is 2). so he answers(in reply to her description of the color of watch):

Man. "That's Right" (Lady memorizes "TWO" but only says:-
Lady. "The time by the watch is a little after nine."
Man. "RIGHT" (this of course signals "ONE" for the second figure of the mimute hand so she knows the full time now.)

Lady. "To be exact, it is just twenty-one minutes after nine. ${ }^{\boldsymbol{M}}$
IT WILL BE NOTICED HON VASTLY SUPERTOR THIS CODE IS TO THE FORMER CODES HHERE TT WAS XECESSARY TO ASK; "WHAT TS THE COLOR"? ETC. IN LENGTHY AND FASTLY DETECTED CODES SUCI AS "T want yon to tell me what metal this watch is;" or "GO, Favor me with the time," etc., as was formerly necessary.

WTTH TIITS CODE YOU DO NOT NEED TO ASKi ANY QUESTIONS for the minute you stari nu an article LADY GOES RIGHT AHEAD DESCRIBING IT

IIERSELF, giving the calor, shape, siza, time, fiate value, ote thus making it serm very wonderful indced. Also you are not number abead all the time and in case you wish to give her another number, you can do so by asking a question, the the question code, but asking for the color or date, so she will know that you are not taking up a new article.

You simply ngree befor hand that the first descriptive point in a coin will be the metal noxt the value and the next the date, etc. and with a watch, the first will be the NETAL, the next the STYLE :open face, hunting case, ote etr.) noxt the TIME, and in the case of all miscellaneous articles, the first will be the color, next the SIZE, etc.

How does she know whether tu go ahead with the description and when to apply the signal to a new article?

Why by the fact that gou have used an "AFFTRMaTIVE" following her naming of the article. So long as you lreep on using AFFIRMATIVES like "YES" or "CORRECT", etc. she keeps on with tho DESCRLPTION IN THE REGULAR ORDER that you have arranged. Bat the minute you wish to stop and take up another article, jou simply say "Corrert (4) MADAME! (meaning Stop regular order) NOH (4) etc. "Or you can dispense with an AFFIRMATIVE and simply say "NOF (4) TELL (4) us what this lady has" etc. The fact that you have ASKFD A QUESTIOV informs your partner that you wish to take up a new article.
A "BE CAREFUL"_or "STOP" or "CHANGE THE ORDER" STGNAL

Thenever you find the regular order will not apply (as in a case Where the hour hand of a wateh is not the correct HOUR) or you wish to let your partner know that she must "be carrful" simply PREFIX "MADAME" to your remark or quastion or adjoin it. You can also arrange with her to understand that when you FiNd TOFR SFNTENCE with "MADANE", it is to mean that you wish 10 SKIP one point in your regular order of description (for instance where the metal of an object is one you are not piepared for or the color is indeterminate) and go right on with the next point, continuing description in the regular order.

It is better to walk through the audience and first have lady name a number of different articles rapidly, using the Qurstion Code to signal -
(1) (4) (10)
"WHAT is this?" "NOF what?" "OVER HERE?" etc.
Then when you come to an article like a watch or coin where color, value, date, initials, etc may be given, why simply stop and use the "AFFIRMATIVE" list. If it is a watch, she will know that your affirmative signal "RIGHT" (meaning 2) applies to and signals the METAL, your next affirmative the STYLE of the watch, next affirmative applies to the TIME, next to INITIALS, etc. etc.

In the case of a coin the firsi applies to the Iffid, next to VALUE, next to DATE, etc.

The first signal after any article has been named applies to the COLOR and next to INITIALS or SHAPE.

Ir 18 not; $k i s e$ to go into the description of any articles except colns watches, elc which are of general interest.

HEIGHTENTNG EFFECT.
All performers have a few RARE articles "planted" with confederutes or emplojees who pretend to be spectators and hand up the articles. This cnables the lady to $b$ into the description of these watches, coins, etc. in detail. telling the inftials, number of watch, that watch was giren to party as a birthday present such a year, has a dent in a certain conner of it, nnd describe a picture in it, etc. as to be very impressive. A few of these "fixed" stunts interjected at intervals astonishes the audience and convinces it of her wonderful powers. In one of these "READINGS" interrupt lady and bay "Thal will do. The gentleman is satisited and time is growing short." This gives gou an excuse to aroid going into such lengthy detail with other articles handed to you by strangers immediately after.

As you go down the aisle, keop your eye "peelcd" for"easy" articles, but do so without appearing to look directly at anyone - ihis is because if a party with a peculiar article sees you look at him and then turn away, ho will suspect you are avoiding him. But by "spotting" casy articles from the corner of your oye, vou can turn to this party and that, and apparently

Until you are fully "broken in" make it a rule to avoid persons making any noticeable effort to get your attention as they probably have something they fcel will catch you. As you finish with one artille. it is a good plai to turn to a nearby person who is not offering anythiag and ask him "Have you something Sir?" A watch, pencil. cigarette case, otc. and as he is not prepaled he will generally unconciously accept your surgestion and offer ONE OF THE ARTICLE, NAMED, or will bring forth a common-place article, easily descibibd. Your verbal suggestion assists in this result of course.

Again, you can touch a fountain per, fatimled handkerchiep or Secret Order button, asking "lay 1 yake this Sir?" All these Little points make four work KASIER and simplify matters, though you can by the means hereafter explained, describe any article.

## HOW TO DESCRIBE UNFAYILTAR ARTICLES.

There are three methods of handling unfamiliar articles.
No. 1. First signal that the article is something to be wary of. Do this by beginning your remarks with "lladane" (meaning be careful) can jou - etc." signaling a number in the "SMAPE" list. lady should then say. "I cannot describe the article very well but I will try to draw it for you. ${ }^{\prime}$ She then draws on a slate afigure to represent eithor a square; circle; triangle; oval, or whatever shape signaled in asking the question. While this is being done; move out into the aisle with article so that your assistant behind wings CAN GET A VIEF OF IT WITH HIS TELESCOPE and tele;hone lady balance of information helped out by such details as you care to gignal. The barest outline is accepted by atidence and always applauded. Thererore, only make a mere outline of the general form, and do not attompt ANY DETAILS even when you learn the article, FOR LATEK YOU

MIGHT BE EXPECTED TO DRAFI DETAILS OF SOMETHING YOU DO NOT KNOW You can see the point of this.

TO AVOID ARTICLE, If for any reason you find it advisable to avoid an article, and it is a small one like a strange lodge but ton or curio, take it, but allow it to slip from four fingers to the floor. It is verg hard to find things dropped under theatre seats. so to avoid delay, after apologlzing for dropping article, take some thing else and by the time it is found you have moved up the aisle out of reach. This cannot be done with large articles, but these are EASILY SELN BY ASSISTANY THRU TELESCOPE, and can be sketched on slate.

## ANOTHER PLAN:-

Ask party to put article in his pocket until later,adding"I will have Mine. describe it HHILE LN YOUR POCKET a little later on. ${ }^{n}$ When you are finished and about to go up on the stage, say "MADAME" I would like to have describe a few articles which are in the pockets of persons in the audience, which have not even been shown to me!" She then should begin; "The gratlemen in --- srat in -...-- row, has - - etc. giving dates, etc. of several coins and bills (which she is familiar with, as your manager gave them out in change at the box office to ticket buyers, and noted down the seat number of parties (as explained hereafter) and also describe several articles which your confederates have in their pockets.

Ask each person to kindly stand up and state whether description is correct. This readiag always cataes great astonishment. FHILE SHE IS TALEING step into the wings apparently for the purpose of getting her a glass of water, but while yOU AlfE OFF, QUICKLY GIVE YOUR ASSISTANT DETAILS OF THE ARITCLE HHICH YOU COULD NOT STGNAL, and walk out with the glass of water. Assistant now telephones to her the details you have just given him and she of course describes the urticle while still in spectators pocket.

## SURPRISE READING OF COINS

At certain points during the act, the lady subject can describe coins, their dates, etc. and bills and thoir long serial numbers, while the coins and bills are STILL IN THE POCKETS OF GENUINE SPECTATORS and aro not showa to any one. This marvelous feat injected at intervals has a $t_{i}$ uls amazing effoct as may well be imagined, but it is really quite easy to accomplish.

INSTRUCTIONS:- Take $y$ our place in the Box Office just before the Show bigi:s, and when tie rush for tickets is greatest, lay out sereral piles of changr, in change of $\$ 1.00, \$ 2.00 \$ 5.00$, etc. (less price of ticket of course; and note down dates of each pile of coins. Select some scats near ecater of house and make a memorandum of their numbers, and set aside these tickets to be given to persons who wants ONE scat only.

Whea someone calls for a single orchestra ticket, push forward one or these "center-uf-the-huase" tickets, and as he puts down his hill, puch forward to the regular box cashier) the "Lot No. I" of the correct change for the party's bill.

Of course you do not interfere with the regular ticket seller,

sumenide meaylivu ur, UUIND; vont a.
but simply stand at one side and are apparently helping him to make change. As each pile of change goes out, Jou simply mark No 1 after your list of seat numbers, and put a corresponding number on your memorandum of the dates of the coins in the particular pile of change you just passed ont. You clueck nff each pile. and the seat it gocs to, so when you are finished you can compare the seat memo and date memo, and give them to your assistant to 'phone to lads when ready.

You should only do this JUST BEFORE the show begins, so parties will go right into theatre and not have tine in spend the money before the curtain rises. It thould only be done with purchasers of SINGLE seats, as you vould not know which seat a purchaser of two seats or more would take, and which his Priends would occupy.

## COLORS

## METALS

1. WIIITE.. . SILVER
2. YELLCFF. . . GOLD

3 RED . . . . . COPPER
4. BLIE. . . . GUNMETA:
5. ORANGE.... BRASS
6. PINK...... PIATINUM
7. GREEN. . . . NTCKEI.
5. PURPLE. . PLATINUM
9. BROWN. . . BRONZF
10. BLACK.... TRON

To assist in memorizing; the LIGHTEST col ors are FIRST, then the THREE PRTMARY COL ORS ias near the order us in our flag as possible) then each of the SHADES as they would combine with the COLORS IN ORDER, (No.l and No. 2 would not produce a new shade) but No. 2 and No 3 give ORAYGE, which we therefore iluce after the Primary Colors. Then No 2 with No- 4 (GREEN) and No. 3 with the next in order No. 4 (PURPLE)etc.

SHAPES

1. sQlane- (Fill do for CUBE also, as most persons
2. OBLONG--(incorrectly say square when they mean cubical)
3. TRIANGLE.
4. ROLND - (This does for spherical and hoop or circle also)
5. OVAL.
6. MANY SIDED - Does rur octagon sextagon, etc.)
7. STRAIGHT - (Like rod,
8. CUBE - (These last threc apply when you wish to
9. SPHERE- (signal what shape to DRAF on slate

1C. ANGLED
In case object is like a bracelet or frame (made of thin material bent to shape indicated) then say "Do it careruliy" :ns she is about to draw, so she will draw a smaller design inside to indicate difforence between circle and disk, squars frame and solid square ete.

SIZES

1. SMALL
2. MEDIUY
3. LARGE
4. STRAIGIIT
5. LONG
6. SHORT
7. LIGHT
8. HEAYY

NATURE (applying to razors,
jewelry and strange articles.)
U.S.A. COINS

| 1. | CENT |  |
| :---: | :---: | :---: |
| 2 | NICKEL |  |
| 3. | DIME |  |
| 4. | QUARTER |  |
| 5 | HALE-DOLIAR |  |
| 6. | DOLLAR |  |
| 7. | GOLD PIECF | \$2.50 |
| 8. | " " | 5.00 |
| 9. | " " | 10.00 |
| 10. | " " | 20.00 |

> Coins graduated from the lowest value upward. In the caso of foreign coin when it has been nomed as; a "Coin", ask "AND Now what country"? thus letting the lady know it is forcign and that your signal in "Now" (or whatever one you are using! applies to co NTRY Your AFrimMaTIVE which follows, she then applies to number of VALuE l, 2, etc. from the lowest coin of that nation 10. " " 20.00 upward.

It is optional whether you bother with FORETGN coins at all. You will probably not AT FIRST anyway, as you can easily avoid them, and also all secret order embloms for Lady is not supposed to soe or to know anything that YOU do not know or see, AS YOU ARE SUPPOSED TO TRANSMIT ONLY iOUR THOUGHTS to her. You are not expected to bo an authority on foreign coinage.

Of course few prople are familiar with many foroign coins or society emblems, so you can take the stand that you are not familiar with them. However, it is well to make out a list of a few of the MOST FAMILIAR of these as it creates a good effect; and you can always avoid any that you wish to, by means explained under "AVOIDING ARTICLES.

$$
\begin{gathered}
* * * * * * * * * * * * * \\
\text { BLACKBOARD TESTS } \\
\hline
\end{gathered}
$$

Numbers written on larce blarlbnard by audjence and added up by the lady who is seated with her bark toward it, and blindrolded, is accomplished in the following manner:

METHOD ONE: Assistant behind screen or wings sees the numbers and 'phones them to lady by the usual bhone apparatus as explained elsewhere.

AETHOD TWO: Code words are used, BUT NOT ADDRESSED TO LADY. As the gentlemen who have come upon the stafe write the mumers you bring each one to the board aud muke a remark TO HIN in a low tone, which is not heard by the audience. but is heard plainly by lady, as "Frite it LARGE Sir" (1) Widte it GOOD and large (0) Frite large PLEASE (2) Frite CLEAR (3) Frite GOOD and CLEAR (4) Make it PLAIN (5) Put your numbers mRRE (6) Write it HERE (7) Write it THERE (8) Right HERE (9) Right THERE () etc. etc. or use, "Here is the Chalk" (1) Let me have the cholls (2, Very Good Sir (3) Thank you (4) That is good and clear. (5) All right. (6) ctc. etc.

METHOD TIREE: Communicatiot is ostablished with the lady and an assistant off stage by means of a familiar SPRING PISTON as sold by all magical dealers for use on magical tables, but which in ihis case is attached to a box which may be casily serewed to the stage floor from underneath the stage. A small hole is then drilled in stage floor so the piston will come thru, and to the head of the piston is attached a small disc of metal which resembles the head of a mail or tack, which head has a, little projection made to serew into the top
of piston rod. When in place, it appears to be one of the nails or tacks in floor. A circular hole is cut in the sole of the lady's right shoe so that by sitting near and placing her foot over the spring piston "Nail-Head" she can feel the numbered signals or strokes of the piston, the thread of which is pulled the proper number of times to signal eacls number, by the assistant off stage.

METHOD FOUR: A lnop of thread is passed over the lady's wrist before she comes on stage, and by pulling this thread the concealed assistant communicates the numbers.

FINALE: - Spectators are allowed to touch numbers on the board which lady calls out. Performer then touches a number of figures RAPIDIY which she calls out as fast as touched. Performers decide before hand that they will touch the following figures only, and in the following OnDER each time, which is memorized: 3 7-1-4-9-blank-6 4-0-7-. When tapping about board he touches a blank space, and as she knows what order this will come in she call out "Nohing there" Comedy ElfECOT: When all theu remark "Wonderful"! She sees it all with her mind" tapping you: forchead to emphasize your remarls, and as you touch your head she calls out "Nothing there"! Pretend surprise as laughter comes.

THE BEST METHOD FOR LICEUM - is the NORD CODE. Feature the black. board test AT THE BEGINNING OF PENFORMANCE, making that part lengthy, and allowing only little time for article descrintion. Only run thru a few articles and then collect a few articles in a hat, loading in a few articles of sour own socretly, which lady may describe while with your answers or "Affirmative" signats on these you code to her the other articles contained Or if you have assistant in wings place hat on side with opening avag from lady BUT Toffard concealed assistant so he can see articles and signal them to lady.

Reading of Sealed Questions written by audience ( (ither one of the four standard methods? will entertain and prevent too much time being given to describing articles, which can only be accomplished to a limited extent in Lyceum, this feature belonging to properly equipped Stage Acts with full companies of assistants.

The folloiftng is a comptlatton of afl the "Tnstructions" for the is ACT SOLD BY MAGICAL DEALERS, ETC. TO-DAY, INCLUDING:

Thif stage Instructing co's \$5.00 COURSE.
THE INSTRHCTIONS BOLD AS "THL ZANCIG and GREAT CARTER METHOD." MIND KEADLNG ACT of (and written by) "HOWE \& HOWE".
THE GREAT POTFERS Instructions.
MORRITS SECOND SIGHT (sold at \$12.00)
shaws seconn sight instructions (Two Methode).
Also a scmaniry of the instructlons sold by lerroy, hernman, MYSTO. CLYME POWERS, etc. and ALL PUBLISIED ARTICLES in the ELETSON COLLEOTIOY OF MAGICAL BOOLS AND ALBUMS OF MAGTCAI. CLIPPINGS, and HEREMARD CARIINGTONS contributions.

Extracts or which are combined in the following compilation of methods.

To noid constant repetition (as several or the instructions etc. are identical, and all other feature points, axcept the systems of
 set of instructions (in other words the new material) is given in each caso.

## THE STLENT "NO CODE" SYSTEM OF SECOND SIGITT.

This method is sold as the voRRTTTS SILENT BECOND SIGIIT and ror as bigh as \$12.00 by one dealor. It is somewhat soientifric and one of these things in Magic which road and sound very "clevor" but which unfortunately are not so rood as thes scem. I am not stating my own oninion but that of no less an authorit. on the subject than --.-..... as well as numerous other porforners with whom $I$ have come in rontact. Further no prominent Second Sight Let ever employed it

TIIE SECRET: is that two porsons may with practice, learn to COUNT TOGETHFR in the sim. "TMOR" as is done in playing music This way be practiced eithor by meens of a "Mot:wnon" as used to regulate time boats in music, or by a loud ticking clock ow again by a pendulum made with a stidag and wight Counting about 70 beats to a sacoud is recommendel Finen this ability to "Count togethor" SIIENTLY has been acquired by two persons, so that filler one can sigaal to stop counting and both will have areived at the same number (never going beyond 9) the next step is to omploy it to signal numbers. This is done by using words to signal wher to START COlNTING togethor, and after the number has boen arrived at anothor signal 10 STOP COUNTLNG. For instance, taking a coin, berfomer mar ask the date and as lady subject Knows all dates start with 1 , ste says, "The first number appears to be "ONE", immediatcly after whirh both start counting. When performer has arrived at the number he wishes to signal he stops her from eount ing further by yriting the figure just given on the blact:boerd, the TAP of the chalk an same being plainly heard by the lady. Larly then giver next figure and as she finishes smadina they start counting a gain, which is stopped when the maber is reached by writing on board. A method of correcting or proventitg one perbou getting anpad of the other is by Lady spacing ler words or pronouncing then no at a time In the sane time that she is colnting, as:-"I - think - the - next num - ber - is - Five." Again the use of a loud ticking wateh fa man's outside breast pochet, aud ane on Lady's bieast, or by watching the rise and fall of the lady's bosom (two couats to each breath). If the reader wishes to gomore deoply into the subject, he can find detailed instructinns in "Hagic Up To Date", by Shaw, or "Stage Illusions and Scientific Diversion", published by Muna \& Company.

THE STAGE TNSTRUCTING CO.'S $\quad \mathrm{Z} 00$ COURSE
in
STAGE MIND READING or SECOND SIGHT.
NOTE: The grammar, expression and punctwation used is that of the original writers -- not mine. B. G. G. H.
"In Second Sight, you go entirely by figures, from 1 to 0 Fords stand for these figures, for instance:

The letter (I stands for (ONE) 1 (QUICK) for (FIVE) 5
The word (GO) for (TWO) $2 . \quad$ (ILEASE) for (SIX) 6.
(Can) for (THREE) 3. (IILLL) for (SEVEN) 7.
(LOOK) for (FOUR) 4 (NOW) for (EIGIIT) 8.
(YOW THEN) for (NINE) 9.
(FAYOR HE) for (CIPHER). 0.
Thus we have the KEy from (l to 0) and by combining these words and figures, with the word (YEXT) and the word (AND) added where the
occusion demands", you can run the mambers up to the thousands, and do so with rour or five simale words alaced in proper combination, which I will show you as wo go on in these studies. you will, as 1 have said, be able to ron tho figures and articles up into the thousands. so that you never lack a number to be placed on sowe New Article which you may mant to add to your Repowtoire. All you have to do is give the article a number. I will explain all this as we get rartber on.

HOlf TO COMBINE WORDS TO SIGNAL NUMBERS OF TWO OR HORF EIGURLS (23-106 etc.)
1 - - - - 0 - - . - $\quad-\quad-\quad 10$.
(I) want you to (FAVOR ME) with this article - 10 .

The word (NEXT) when used in any line with a Single Figure means that whaterer (Code figure) the wod is alaced after. is to be repeat ed, as in the next line.
(I) (NEXT) want you to tell what this is (11)
(GO) on (NEXT) tell what this is (22).
(CAN( YOU (NEXT) tell what this is (33).
(LOOK) (NEXT) tell what this is (44)
(QUICK (NEXT) tell what this is (55). etc.
TO MAKE THE FIGURE OR NUMBER ONE MHNDRED.
" (I) want you to (FAYON ME) (NEXT) with this aticle" $=100$

The word "AND" when placed rielt after the word mext" means that the rigam mat be MEPEATED ONCE MORE, as cample on line below:

Asll for the number this way:
(I) want you (NNXT) to try (AND) tell this article - (111.)

ARTICLES AND OBJECTS.
EACI ARTICLE HAS A NIPRER, and MORDS ARE ISED TO CONVEY THE NCMBER OR NUMBERS.

## List of Articles.

|  | 137-Golf Ball | 138-Keys. |  |

THE KIND OF METAD IN COINS.
"After the questioner gives the Cue "lrhat HOULD YOU CALL THIS"? and received the answer, MONEY, he will then ask what lind of money, and the following table will give you the questions and answers nec-essary for the occasions:

"Next I will show you how to tell the dates of coins, etc. after the money has been described, as to whether it is gold. silver, nickel. copper, etc. The following will enable you to tell the dates on the coins. If the coin is in the Nineteen Hundred Class, the BlindPold will know this, as the Questioner will only ask the last two figures on a coin like this, if the coin is 19]3: The Questioner will say: (I) want you (CAV) you tell the date on this coin?

1 - 3 - 3 - $\quad$ - $\quad$ - 13.
"You thus hare, (I) which means ONE, and (CAN) which means THREE, so knowing that the date on the coin is in the nineteen hundred class the answer only can be (1913).

If previous to 1000 say $^{8}(I)$ (NOW) want you to tell the FIRST TWO rigures of the date." Yon mey then ask for the last two figures of the date, and of course the code words you employ in the question tell your partner what they are.

## The Instructions sold by laura g.fixen <br> AS <br> "THE ZANCIG SYSTEM \& (ARTERS METHOD."

As sold with affadavit of lama $(\underset{i}{ }$ Fixen made before Notary Public Geo G. Commons of Cook Connty, Ill and accompanied by "facsimile signature letters of Julius Zancig" and Cerificate from

Julius Zancig to the effect that: Laura $G$ Fixen (the anthor) had completed Zancigs complete course in Trlepathy, and also a letter from Jiss Abigail Price (who presented the det with rarter, the Magician) stating that the system was correct and as used by her.
HOH TO APPLY THE "SECOND STGHT" SYSTEM
"Two persons are needed to perform this act, one on the stage, the other walks among the spectators.

Have a clue for every letter in the alphabet as follows:

| I. . . . A | Then. . . H | Go next. . . 0 | Now next | V |
| :---: | :---: | :---: | :---: | :---: |
| Go. . B | Now . . . 1 | Cun " . . . P | Favoi next. | IV |
| Can. . C | Favor . . .J | Look " . . . . Q | Tell next | X |
| Look . . D | Tell. . . | Please next, $\quad$ R | See noxt. | Y |
| Please . E | See . . . L | will next .S | Well next | . 2 |
| Will . . F | Well . . . M | Quick next . . T | - |  |
| Quick. .G | I next. . . N | Then nest. . . U | - |  |

To change your cues, simply change the letters as you please.

## TO TELL LETTERS.

In asking for the letter, say to jour assistant:

TO TELL DATES.
hontlis are aranged from 1 to 12, as:

Jamuary
Febuary

1
2

March
April

3
4 etc.

The gays of the weok from 1 to 7, as:-

| Sunday | 1 | Tuesday | 3 |
| :--- | :--- | :--- | :--- |
| Monday | 2 | Hednesday | 4 etc |

To toll a pomon's ase, ask him to whispor his are to you giving month and date.

Th askine your pantmer ynu say, plase ran you give mo the month
 month, and "can" for 3.

## TO TJLLL ARTICLES.

Select your own list of articlos and momber them fosmit Give the number to your assistant. Examples:-
 9-Cane 10-Umbrella 11-Case 12- Iing 13-Badge

LODGES AND ORDERS
Tu fiving cues for "oders" use dio word "rerroment" instrad of "lodze" or "order". "That does this represent"

| 1 | Masoa | 11 | Forosters | 20 | Sons of St George |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 2 | 0aderilow | 1 | A 0.1F.: | 21 | Daughters of Rev. |
| 3 | I. of ${ }^{\text {a }}$ | 1:3 | surs obVataras | 22 | Daughter: of Rebocea |
| 4 | El?: | 11 | fardos | 23 | Spanish liar Veterans |
| 3 | Re:man | $1 \%$ | $\therefore$ ive Sun Gobrm | $\therefore$ | Eastown Star |
| 6 | Ledal |  | Mes: | 25 | Greek Fraternity |

| 10 | Woodam | 19 | Royal icague | 30 | Sheep |

No further instruetion iogardiag the prescntation, etcare fiven. HONE AND IHINE SYSTER \& CODES

CODE WORDS.

"Hurry, up" means to REPEAT the lasi lette之 or number given.
"Yes, Now tell us lle date of his coin" would mean 1910 as "yes" is 1.
"Now is 9, "lell us" is ten.
The balance. of this sol or inslructions is identical with the
other publishod "Instructions" of which all ale about on a par so faras any real insiructiun goes, consisting of nothing but the same old worn out Code and a list of articles - nothing more.

THE SERIES SYSTEM
OF ARRANGING A LIST OF ARTICLES.
Arrange your articles into SEIIES that is, make up a set of 11 articles which are more or less alike The elerenth will be the cipher ( 0 ) Call this Series \#l Then make up a second set and call it Series \#2, and so on until all your articles are arranged into these sets, and memorize each with its corresponding number.

In this case, arrange a number of words which are easily prefixed to your question sentences, i.e. used to begin jour sentence or question with to signal the "series" or Table, or Sct of Articles, while the question itself will indicate the number of the urticle in that series. For instance, berin your sentence with "COME" (for Series One) or "MADAME" (for Series Two) "Please" (6) name this artin cle", which means Series Two, Article No. 3 , etc One cue word for each series.

Then you prefix "Madame" or the series word before the question, which then tells what SERIES the number you give applies to. For THIRD ARTICLE in SERIES NO. 2, Say "Madame (Srioes \#2)can (No. 3) you give this article?"

THE THREE PART NUMBER SYSTEM
The artieles in this case are aranged in one list but with Thiee drticles to EACH NUMBER, as:

1. Watch - Compass - Clock.
2. Chain Charm Locket (Articles of a LIKE NATURE be3. Cigar Cigarette - Pipe ing grouped under each number to assist in memorizing).

You give the NUMBER in the word code, and then to let your partner know which of the three articles you man you use one of the THREE CODE FORDS as follows: "Deseribe, ete". means that number applies to FIRST ARPICLE of the number given. "THCNE" means the SECOND ARTICLE of the number given and "HURRY" for the THIRD ARTICLE.

It is claimed that this sustem can be monorizedmore rasily than others. A little practice in the well linown Memory System of memorizing articles in relation to each other no matter how different thoy really are (as is often doue for a parlor amusement will help the student greatly.
